EDUCATION

University of South Florida

Master of Science in Artificial Intelligence and Business Analytics

Aug 2024 – May 2026

GPA: 3.97/4.00

National Institute of Technology Calicut

Bachelor of Technology in Civil Engineering

Aug 2014 – May 2019

EXPERIENCE

FitFlix Private Limited

May 2023 – May 2024

Senior Analyst

- Analyzed large customer, pricing, and revenue datasets to identify revenue leakage and pricing inefficiencies, contributing to 40% YoY revenue growth.
- Built and maintained ELT pipelines in Snowflake to clean and transform data, improving reporting efficiency by 25%.
- Developed dashboard reporting and KPI tracking for revenue, churn, and customer behavior, enabling faster decision-making for business stakeholders.
- Conducted ad hoc and recurring analysis to support pricing strategy, retention initiatives, and performance monitoring.
- Collaborated with business, operations, and engineering teams to translate data findings into process improvements.

Zinka Logistics Solutions Private Limited

May 2022 – April 2023

Product Analyst

- Analyzed user, pricing, and transaction data to identify opportunities for conversion and pricing optimization.
- Designed and evaluated A/B tests using hypothesis-driven analysis, improving conversion rates by 10%.
- Used data to support implementation of a three-tier pricing model, contributing \$1.1 million in incremental revenue.
- Built analysis and reporting for cross-functional stakeholders across business, engineering, and product teams.

Phasorz Technologies Private Limited

November 2021 – April 2022

Product Analyst

- Built real-time dashboards in Apache Superset to monitor product KPIs and user engagement.
- Cleaned, standardized, and validated 150K+ SKUs, improving data quality and increasing analytics reliability by 30%.
- Performed trend and funnel analysis on user journeys to identify pain points and improve customer experience.

Larsen and Toubro Limited

July 2019 – November 2020

Data Analyst

- Extracted and analyzed operational and inventory data from SAP ERP systems to support project planning and reporting.
- Built Tableau dashboards to monitor real-time stock availability for 1,000+ inventory items, reducing shortages and improving visibility.
- Automated recurring operational reports using Excel functions, Pivot Tables, and LOOKUP formulas, reducing manual effort by 30%.

PROJECTS

Socio-Economic Determinants of Crime | Analyzing the impact of economic factors on crime rates

February 2025 – May 2025

- Gathered and integrated income and crime data (2010-2023) from the U.S. Census Bureau and FBI via APIs.
- Cleaned and prepared datasets using Python and Excel, ensuring data accuracy for analysis.
- Developed interactive Tableau dashboards to visualize insights and support data-driven understanding of crime patterns across region.

Florida Poverty Trends Analysis | Exploring poverty and income trends across Florida

June 2025 – July 2025

- Collected and integrated multi-year poverty data (2012–2024) from the U.S. Census Bureau across all Florida counties.
- Cleaned, validated and transformed datasets using Python and Excel, ensuring consistency for time-series comparisons.
- Conducted trend and comparative analysis to evaluate regional disparities, COVID-19 impact, and recovery patterns.
- Built interactive Tableau dashboards to visualize county-level poverty trends and support data-driven insights.

EV Adoption in Washington State | Investigating electric vehicle growth and adoption patterns

August 2025 – November 2025

- Designed and implemented a STAR schema data warehouse integrating EV registrations, county-level income, and tax-exemption data for Washington State using Oracle SQL Developer.
- Performed SQL-based analysis using joins, aggregations, and window functions (LAG, CORR, NTILE) to uncover trends in EV adoption across time, geography, and income levels.

TECHNICAL SKILLS

Data Analysis & Reporting: SQL, Python, Pandas, NumPy, Excel, R, Data Cleaning, Data Validation, KPI Tracking

Visualization and BI Tools: Tableau, Power BI, Apache Superset, Metabase, Oracle, SSRS

Big Data and Cloud Technologies: PySpark, Apache Airflow, dbt, AWS (S3, Redshift), Snowflake, Fivetran, BigQuery

Statistical & Analytical Methods: Hypothesis Testing, A/B Testing, Data Modeling, Trend Analysis, Predictive Analytics

Collaboration and Tools: Git, Jira, Confluence, Jupyter, Slack, Microsoft Teams

CERTIFICATIONS

Databricks Data Engineer Profesional 

Azure Databricks Architect 

Google Advanced Data Analytics
